How to Refer Patients

Referring your patient for a wide range of health, well-being and cosmetic services at Candover Clinic is quick and simple.

You can refer to a specific consultant or health professional, or make a generic referral and we will allocate accordingly.

Email

The most secure and efficient way to refer a patient is to email: bnh-ft.referrals-candover@nhs.net

Post

Post referrals to:

Candover Clinic
Hampshire Hospitals NHS Foundation Trust
Aldermaston Road
Basingtoke
Hampshire
RG24 9NA

Should you have any further questions about the referral process, please do not hesitate to contact our enquiries team on 01256 315050.
How to Refer Patients: Diagnostic Imaging

**Clinic Mon-Fri 08:00-19:00**
Candover Clinic owns and operates an ultra modern MRI scanner that is the only wide bore, short length unit in the area. The scanner central hole is over a third bigger than other scanners significantly reducing the feeling of being in a small space during imaging.

The purpose-built 140 square metre facility was designed specifically to optimise the patient’s comfort and equipped with the latest technology, Siemens MAGNETOM Area 1.5T MRI scanner.

The MRI unit is fully staffed with UK accredited MRI specialist radiographers. All MRI Scans performed at Candover Clinic are protocol and reported in-house by the NHS Consultant Radiologists.

**Referral Criteria**
All MSK, spine, brain, IAM. Please telephone to discuss criteria and for any other conditions: 01256 315035

**Booking Information**
You can request via ICE or visit candoverclinic.com/downloads and complete: “Diagnostic Imaging Request Form” and send to us via email:

Secure Email: hh-ft.imaging.candover@nhs.net

Tel: 01256 315055
How to Refer Patients: Diagnostic Imaging

Clinic Mon-Fri 08:00-19:00
Situated in a spacious, light scanning room, our CT scanner also has a wide bore providing much greater comfort for claustrophobic patients. The unit’s “64 slice” detector provides super-fast imaging allowing for much shorter patient breath holds compared with other models. The longer couch movement combined with short scan times enables scanning of the entire body in one run.

The Siemens Somatom Definition AS CT Scanner incorporates highly sophisticated detectors for superior image detection and noise reduction.

Patient Safety is of paramount concern so our system is equipped with dose reduction software to ensure consistent results with minimal radiation for every scan.

Referring
- CT chronic headache pathway
- CT Sinuses
- Renal colic pathway
- Any CT scan recommended by Radiologists

Please telephone to discuss criteria and for any other conditions: 01256 315035

Booking Information
You can request via ICE or visit candoverclinic.com/downloads and complete: “Diagnostic Imaging Request Form” and send to us via email:

Tel: 01256 315055
How to Refer Patients: Diagnostic Imaging

Clinic Mon-Fri 08:00-18:00
The unit’s digital x-ray room is equipped with a Care stream DRX evolution detector technology and EVP Plus image-processing software which deliver superb image quality with as low as reasonably achievable dose.

The x-ray unit is fully staffed with UK accredited radiographers. All x-rays performed at Candover Clinic are reported in-house by the NHS Consultant Radiologists.

Referring Criteria
All relevant plain film requests.

Booking Information
You can request via ICE or visit candoverclinic.com/downloads and complete: “Diagnostic Imaging Request Form” and send to us via email:

- Vascular
- DVT
- MSK
- Small Parts
- Thyroid/Neck
- Renal
- U/S guided injections and FNA’s

Fluoroscopy Studies & Interventional Radiology

Candover Clinic provides access to the Interventional Imaging Suite at Basingstoke and North Hampshire Hospital. Referrals are accepted on a case by case basis.

Booking Information

You can request via ICE or visit candoverclinic.com/downloads complete: “Diagnostic Imaging Request Form” and send to us via fax or email:

Secure Email: hh-ft.imaging.candover@nhs.net

Tel: 01256 315055
Candover Clinic is a stand-alone unit located on the Basingstoke and North Hampshire Hospital campus.

Candover is owned and operated by Hampshire Hospitals NHS Foundation Trust as an investment to provide additional funding to support NHS services within the Trust.

The Trust has over 350 practising consultants who all have automatic admitting rights to Candover Clinic. We also have access to all specialities across the Trust and welcome generic referrals.

Our spacious facilities include a purpose built private outpatient clinic and a comprehensive diagnostic centre.

Inpatients are treated in our hotel style, all en-suite private ward, Candover Suite, finished to a superior specification with access to our ultra-modern private theatre facilities.

Candover Suite exceeds the specifications of all private medical insurers and is staffed by private only medical and support personnel. For your care we staff up to a high nurse to patient ratio and provide 24-hour dedicated Resident Medical Officer (RMO) cover ensuring all patients are very well looked after.

Our gourmet food is prepared on-site by an experienced chef and delicious daily menu options will help you feel better throughout your stay. Our flexible visiting hours mean patients are made as comfortable and happy as possible.

Candover are recognised by all healthcare insurers and offer competitive self-funding options.
Candover Clinic have welcomed 16 new consultants this quarter.

New services available include ear syringing and mole removal. We are also offering back assessment clinics led by our Consultant Neurosurgeon which includes assessment, MRI and full consultation.

We have welcomed a new practitioner providing a podiatry service at Candover, specialising in sports injuries.

A general practitioner has joined who specialises in menopause. Dr Leonhardt hosted England’s first menopause cafe earlier this year and will be running menopause clinics at Candover.

New therapy services include the addition of a Physiotherapist who specialises in providing paediatric physiotherapy for children and young adults.

Our expanding cosmetic service now includes two more cosmetic surgeons. Additional services available now include laser scar treatment and active acne laser treatment. Thread vein and rosacea treatments are also available with this laser and are provided by a general practitioner who specialises in cosmetic treatment. She is the only trainer for this particular laser in the UK.
Seifert, Dr Chris
Consultant in Pain Management and Anaesthesia

Professional Interests
• Acute and chronic pain

Expertise
• Musculoskeletal pains
• Complex regional pain syndrome
• Botulinum Toxin for muscular pain and migraines

Assessments Investigations Symptoms
Specialises in accurate diagnosis and treatment of neck, back and related nerve root pain.

Training
Foundation Fellow of the Faculty of Pain Medicine of the Royal College of Anaesthetists

Professional Interests
Research interests in:
• Parkinson’s disease
• Fragility fractures
• Education
• National audits

Expertise
• Movement disorders
• Parkinson’s disease
• Orthogeriatrics
• Fragility fracture, falls and syncope, TIA/strokes
• Cerebrovascular disease, non-specific presentations

Assessments Investigations
Symptoms
• Syncope
• Tremor
• Unsteadiness
• Dizzy spells
• Generalised slowing down
• Memory dysfunction
• Lethargy

Training
Graduated from Westminster Medical School London and continued postgraduate training in UK. Joined Hampshire Hospitals NHS Foundation Trust in 1998. Since then Dr Arianayagam has gained experience in managing a wide range of general medical conditions and has been in the past the trust lead for stroke service, falls service and dementias.

Current Appointments
Consultant physician in elderly care medicine with a special interest in orthogeriatrics/medical management of hip fracture care and Parkinson’s disease.

Professional Interests
Dr Ingamells is a skilled obstetrician and gynaecologist with a specific interest in IVF. She was a Wellcome Trust clinical research fellow in molecular biology and endometrial function. Sue is also a university tutor for the medical students at the University of Southampton and teaches science and medical students in reproductive medicine.

Expertise
Dr Ingamells is a fully accredited sub specialist in reproductive medicine and surgery and is specially trained in fertility and women’s health. Her additional areas of expertise include recurrent miscarriage, endometriosis and ovulatory disorders and their treatments.

Assessments Investigations
Symptoms
- Initial fertility consultations
- Rapid fertility assessments
- HyCoSy
- Egg collections and embryo transfers
- Ultrasound scanning
- Egg and sperm donation
- Surrogacy

Training
Dr Ingamells trained as an obstetrician and gynaecologist in Southampton and Salisbury and has worked in infertility since 1995. Her PhD with the University of Southampton was on the subject of ovarian function.

Current Appointments
Dr Ingamells has worked with Wessex Fertility since 1999. Although Sue undertakes any type of patient cycle at Wessex Fertility she also manages the cycles for patients with complex issues/needs. Wessex Fertility is a recognised centre for the provision of surrogacy service, with Sue coordinating these cycles with her dedicated team. Testicular and male factor fertility issues can be fully investigated at Wessex Fertility and treatments such as surgical sperm retrievals are carried out on site by Sue.

Miller, Dr Adrian
Consultant Neurologist

Professional Interests
- General Neurology
- Neuromuscular Disorders
- Headache
- Motor Neurone Disease

Expertise
Dr Miller sees patients with any neurological symptom or condition.

- Subspecialty interest in disorders of peripheral nerve and muscle
- Regional subspecialty clinics in neuromuscular disorders and motor neurone disease
- Management of chronic headache disorders (including botulinum toxin injection and greater occipital nerve block)

Training
- MA, University of Cambridge
- MB BChir (Distinction), University of Cambridge
- PhD, University College London
- Member of Royal College of Physicians
- RCP Specialty Certificate Examination in Neurology

Dr Miller graduated with distinction from Cambridge before completing postgraduate medical and neurological training at London teaching hospitals including Hammersmith, Royal Brompton, St George’s, Guy’s, St Thomas’, Chelsea & Westminster, Charing Cross, St Mary’s and the National Hospital for Neurology & Neurosurgery, Queen Square.

Dr Miller was awarded a PhD by UCL Institute of Neurology for research of the muscle disease inclusion body myositis, funded by the Medical Research Council.

Current Appointments
- Consultant Neurologist Hampshire Hospitals NHS
- Honorary Consultant Neurologist University Hospital Southampton NHS
- Honorary Consultant Neurologist Poole Hospital NHS

Marsland, Mr Daniel  
Consultant Orthopaedic Surgeon

Professional Interests / Expertise
- Foot & ankle surgery
- Sports medicine
- Research
- Trauma
- Surgical training

Expertise
Mr Marsland specialises in all aspects of foot and ankle surgery, including hallux valgus surgery (bunions), big toe osteoarthritis, flat foot correction, fusion surgery and total ankle replacement. He has a particular interest in sport injuries including the syndesmosis and osteochondral injuries and specialises in arthroscopic surgery of the foot and ankle. He is trained in shockwave therapy to treat both Achilles tendinopathy and plantar fasciitis. He also treats complex foot and ankle trauma, as well as general trauma.

Assessments Investigations Symptoms
For foot and ankle conditions, Mr Marsland most commonly uses weight bearing x-rays for initial investigations. Where further information is required for accurate diagnosis MRI, CT or ultrasound may be required.

Training
Mr Marsland originally qualified in Medicine from Sheffield University in 2003 and went on to complete his Orthopaedic higher specialist training in Wessex, including a visiting trauma fellowship in Liverpool.

Mr Marsland has extensive fellowship training in foot and ankle surgery at world renowned centres including:
- Mater Adult Hospital, Brisbane (Michael Lutz and Ben Forster)
- Fortius Clinic, London (James Calder)
- London Orthopaedic Clinic (Lloyd Williams)

To support his fellowship training in Australia he was awarded the prestigious British Orthopaedic Foot & Ankle Society Gold Award. He has also undertaken a travelling fellowship to the University of Amsterdam to visit Professor Niek van Dijk, a pioneer in arthroscopic surgery.

Jog, Dr Sunila  
**Consultant Paediatrician**

**Professional Interests**

Dr Jog is a consultant paediatrician and provides expert and comprehensive care for a wide range of paediatric problems. Dr Jog has specific expertise in paediatric respiratory medicine, allergy and neonatology. She also enjoys managing rheumatology conditions in children.

**Expertise**
- Respiratory
- Allergy
- Neonatology

**Assessments Investigations**

**Symptoms**
- Normal new-born baby checks
- Routine and optional immunisation
- Feeding difficulties in babies, infants and children
- Eczema
- Asthma
- Recurrent respiratory infections
- Allergy
- Constipation
- Faltering growth
- Acute illness/infections
- Recurrent headache
- Joint pains and swelling
- Heart murmur
- Fits and fainty

**Training**

Dr Jog had the privilege of working in three health care systems in the world (India, Australia and the UK). This not only enriched her clinical expertise but also allowed her to evaluate and understand effective service delivery and patient care. During her training in the UK, she had the opportunity to train in general and sub speciality paediatrics in Scotland, West Midlands and Wessex.

This extensive training helped her to develop sub-speciality interest in Paediatric respiratory medicine, allergy and neonatology.

**Current Appointments**

Consultant Paediatrician Hampshire Hospitals NHS Foundation Trust.

Orr, Simon
Musculoskeletal Physiotherapist

Professional Interests
Research interests:

• Parkinson’s disease
• Fragility fractures
• Education
• National audits

Expertise
Simon specialises in returning both recreational and national level athletes to full fitness with the use of appropriate manual therapy skills, a phased return to fitness programme and then managed return to full sport. Simon also treats a range of pre and post orthopaedic patients.

Assessments Investigations
Symptoms
Simon carries out a full biomechanical screen and assessment. Treatment would be appropriate to the patient however Simon usually uses a mix of manual therapy techniques, dry needling and dynamic taping. He has access to a 2500 sq. foot gym to ensure patients are fully prepared for a phased return to activity.

Training
BSc (Hons) physiotherapy from Southampton University.

Current Appointments
• Private practice based in Hampshire
• Working alongside Bourne Sports medicine in Basingstoke and Reading

Rathod, Professor Shanaya
Consultant Psychiatrist

Professional Interests
Over the years Prof. Rathod has mastered specialist skills across the illness pathway through assessment, diagnosis, and treatment of common and severe enduring mental health conditions. She has an expertise in supporting people through stressful times in their lives, through developing their resilience and coping strategies by working with them collaboratively and coaching them towards recovery. She aims to provide a high quality personalised and friendly service where patient’s experience, choice, and needs come first.

Expertise
Prof Rathod provides expertise in a wide range of mental health problems in General Psychiatry:
- Anxiety and Adjustment disorders
- Panic attacks
- Phobias
- Depression
- Coping problems and work related stress
- Bereavement management
- Bipolar Affective disorder
- Perinatal mental health
- Trauma and Post-traumatic stress disorders (PTSD)
- Behaviour management and personality disorders
- Psychosis
- Alcohol and substance misuse
- Chronic Pain
- Medicolegal work

Training
Prof Rathod specialided as a Psychiatrist in Wessex, gaining full membership of the Royal College Of Psychiatrists and accreditation with the GMC as a consultant specialist in adult and old age psychiatry. She then completed a Doctorate in Medicine from the University of Southampton and a Masters in Leadership from the University of Birmingham and NHS Leadership Academy.

Current Appointments
- Consultant Psychiatrist since 2002
- Director of Research
- Visiting Professor at the Faculty of Science, University of Portsmouth
- Mental Health Clinical Lead for the Wessex Clinical Research Network and Wessex Academic Health Sciences Network

Nader-Sepahi, Mr Ali  
Consultant Spinal Neurosurgeon

Professional Interests / Expertise
Mr Nader-Sepahi is a Consultant Spinal Neurosurgeon with expertise in microsurgical techniques, decompression with either fusion or disc replacement. These options are used for treatment of compression of nerve roots in the lumbar and cervical spine. Compression can cause sciatica (back and leg pain), pins and needles, neck pain and myelopathy (spinal cord compression in the neck). Nerve root compression can also occur causing arm pain with weakness and numbness of the arms and hands.

Training
Mr Nader-Sepahi has a special interest in treatment of spinal cord tumours, spinal tumours, Chiari malformation and syringomyelia (pain and clumsiness in the hands with loss of balance).

Current Appointments
Wessex Neurological Centre
